

# Case History

Performance you can trust

## Product(s)

SAFE STEP® Tile Treatment: significantly increases the slip resistance of wet tiled surfaces by creating a microscopic texture

## Customer

Metronet Rail / London Underground

## Location & Date

Northumberland Park Depot London N17.  
Completed August / September 2009

## Application Details

Area: tiled floors and stairs  
Entrance / lobby areas and stairs are in constant use. Water and Oil are carried on to the floor by foot traffic, which had resulted in some minor accidents and near misses.

## Specification

ROCOL recommended SAFE STEP® Tile Treatment. The specification was for a single application of the material which;

- is quick to apply and treats the tile within 5 minutes of application
- has a reaction time of approx 15 – 20 minutes
- is supplied as an easy to use single pack product
- low odour

## Result

After a reaction time of 20 minutes, the treatment was then neutralized using a Bicarbonate solution Trial application was successful.

The customer was very satisfied with the ease and speed of application and the improved slip resistance which resulted.
