

Case History

Performance you can trust

Product

SAFE STEP® Asphalt Repair Compound

Location

Northamptonshire. February 2008

Customer

Northamptonshire Police Service

Application Details

Northamptonshire Police Service was concerned by a number of large potholes in the car park because they presented a major slip, trips and falls hazard.

The problem existed across a number of police station car parks within the force area:

- Towcester
- Daventry
- Weston Favell
- Campbell Square

Specification

ROCOL® recommended SAFE STEP® Asphalt Repair Compound to fill the potholes.

Asphalt Repair Compound was specified as it;

- Takes traffic flow immediately
- Is resistant to oil
- Can be used in wet conditions
- Coverage: 0.75m² per 25 litre pack

Result

The slip hazard was resolved for customer and the work went well with positive feedback on the job & quality of the installation.
